## FREQUENTLY ASKED QUESTIONS

**What grade of anchor bolt do I need?**

For general structural anchoring, ASTM F1554 Grade 36 (or Q235/Grade 4.6) is common; higher loads use Grade 55 or 105 / class 8.8. Provide your load or drawing and we will match the grade and thread.

**Do anchor bolts come with nuts and washers?**

Yes. We supply complete anchor bolt sets with matched hex nuts and washers, and can add a second nut for double-nut leveling if required.

## FACTORY-BACKED SUPPLY
